

INTERVENTION IS SAVING LIVES IN PHILADELPHIA

How We Support Intervention-Based Gun Violence Reduction Efforts

A PUBLIC-PRIVATE PARTNERSHIP

The Civic Coalition to Save Lives is a nonpartisan effort to help reduce gun violence in Philadelphia by supporting proven intervention-based strategies.

INTERVENTION IS GROUNDED IN EVIDENCE AND FOCUSED ON IMPACT

WHY INTERVENTION EFFORTS MATTER

POSITIVE PROGRESS

Shootings are down significantly since 2021

2024 saw a 43% drop in gun violence in Philadelphia, surpassing all major U.S. cities

PAINFUL REALITY

Gun violence is still the leading cause of death for Black men ages 18-35

In Philadelphia, 20% of shooting victims die; the 80% who survive represent a critical chance to intervene

WE HELP FUEL WHAT WORKS

Connect intervention partners to resources that support their work and build capacity

Collaborate across sectors to align efforts and drive collective impact within the intervention ecosystem

Convene stakeholders to spotlight and amplify proven intervention strategies

Communicate stories of progress and advocate for sustained public and private investment in community violence intervention efforts

PROGRESS IS REAL — BUT FRAGILE

-  Intervention requires sustained focus
-  When intervention efforts slow or stop, research proves gun violence rebounds
-  Now is the time to double down — for those still most at risk, before it's too late

Sustained change requires sustained commitment
